SHRINK PACKAGING MACHINES – MODEL SPM

AIMS presents **Shrink Packaging Machine** for wrapping the product in a skintight PVC / BOPP / LDPE film cover making the product totally air tight & giving the packing the same shape as the product itself.

2 in 1 Shrink Packing Machine Model SPM-5540 where the sealing and shrinking is in single operation. Sliding film rack to receive film of various materials like POF (Polyolifin) or any thin shrinkable film in folded roll form. Transparent glass cement hood, making sealing and shrinking processes fully visible. Furnished with pinhole equipment for film rolling. Bleeding in-film air by gas flushing. Furnished with electromagnet. Gently press the upper cover to complete sealing and shrink packaging.

This model can be used for Packing confectioneries, cosmetics, books, magazines, stationery items, house hold goods, toys, gifts, promotional offers, cartons and multiple wrapping application.

SPECIFICATIONS:
